### "Little Sister"

Hey, sister, why you all alone?  
I'm standing out your window  
Hey, little sister, can I come inside, dear?

I wanna show you all my love  
I wanna be the only one  
I know you like nobody ever, baby

[2x]  
Little sister, can't you find another way?  
No more living life behind a shadow

You whisper secrets in my ear  
Slowly dancing cheek to cheek  
It's such a sweet thing when you open up, baby  
They say I'll only do you wrong  
We come together 'cause I understand  
Just who you really are, baby

[2x]  
Little sister, can't you find another way?  
No more living life behind a shadow
